

THE NEW ITP VERSA CROSS® V3

The ITP Versa Cross V3 offers extreme performance for hard pack to intermediate terrains. With an enhanced tread pattern and 8 ply rated radial construction, the Versa Cross V3 is designed for today's high performance UTVs.

MADE IN USA

PERFORMANCE

- Super-deep rim guard designed to protect the rim lip on styled aftermarket wheels
- "Tough Tread" rubber compound protects against cuts, chips and tread wear

TERRAIN

- Additional channel cuts improve traction on slick rock and in wet, muddy conditions
- Excellent for hard pack to intermediate terrain

TREAD DESIGN

- 19 mm lug depth with center lug channels
- Shoulder lugs enhanced with contour changes and channel cuts promote ease of steering on low profile sizes and increases traction in slick and rutted conditions
- Additional channel cuts in tread face lugs increase biting edges

CONSTRUCTION

- Compliant with DOT Test Standards
- 8 ply rated radial construction
- Reinforced belts provide increased traction and improved puncture resistance
- Increased sidewall strength offers superior stability and puncture protection
- Made in USA
